COVID-19 VACCINATION CAMP

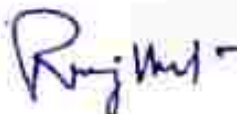

Karimganj district administration and Department of health and family welfare, Government of Assam planned a five day mega vaccination camp at Karimganj College campus. The programme was initially planned for college staffs and their family members, but the presence of large number of interested people and the availability of vaccines made us decide to allow everyone.

NSS volunteers of Karimganj College were given the task of managing the crowd and to help the people to register in the Co-Win app. The volunteers were highly motivated and did a nice job. There was no chaos in the entire process of vaccination. People were given numbered-tokens and they waited in the queue patiently. They trusted our volunteers and there was no high handedness.

Thirty five NSS volunteers participated in the vaccination camp. To streamline the entire process, seven teams, each having five volunteers, were deputed and their able presence made the entire experience comfortable to the health workers and the beneficiaries of COVID vaccines.

A total of 471 persons received vaccines at the vaccination camp.

30 September – 06 October, 2021 07 DAYS' SPECIAL CAMP

NSS volunteers need to participate in a seven days' special camp at the adopted village within their two years tenure. So, to fulfill this requirement, proper planning was done and a mega awareness campaign was launched at our adopted village Karnamadhu. We visited the village and had a prior discussion with a few village seniors to chalk out the detailed plan of activities.

As per our plan, six topics were chosen for this mega awareness campaign. These are drug and alcohol abuse, personal hygiene, tree plantation, water conservation, cancer and AIDS. Leaflets were prepared by NSS volunteers and I, as the programme officer, checked the leaflets, did necessary changes and got them printed.

On 30 September, 2021, we reached village Karnamadhu. With the help of local people, we surveyed the area of our camp. This helped us to conduct the camp smoothly. Local people were informed about our proposed activities and they were very enthusiastic. Though as per guidelines, NSS volunteers need to stay in the village, considering the prevailing situation, arose due to COVID, we were discouraged to stay in the village. As the village is not so far from the main town, so we agreed to the villagers and decided to leave the village after our proposed activities.

On 01 October, 2021, we reached the village by 09:00 am. Today, our thrust area of activity was **drug and alcohol abuse**. Bundles of leaflets were distributed among the volunteers and the door to door awareness campaign started.

On 02 October, 2021 we talked about importance of **personal hygiene** and during this pandemic, this concept of cleanliness and hygiene got the much needed importance. The village people were more or less aware of the need of hygiene for good health.

This COVID-19 pandemic taught us the importance of plants in our life. In order to motivate people for plantation NSS volunteers had prepared a leaflet with a list of plants with their specific importance. On 03 October, 2021 our awareness campaign was on **plantation**.

On 04 October, 2021 volunteers made people understand the importance of water conservation. World is running short of water to be used for our daily activities. Many villages and even cities are reeling under heavy shortage of water. To fight with this issue, government is stressing on rain water harvesting and volunteers went door to door to aware villagers about the various means to stop water loss.

The last two days of our special camp focused on cancer and AIDS. Both these ailments can be controlled by extensive awareness. On 05 October, 2022 volunteers distributed leaflets on cancer and talked about the ill effects of tobacco. On 06 October, 2022 leaflets on AIDS were distributed and made people aware of the various aspects of its prevention.

People of the village Karnamadhu were patient while listening to our volunteers and encouraged us to continue our awareness drive.

07 February and 02 March, 2022 = VACCINATION CAMP

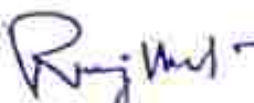

Government of India has approved vaccines for the adolescents above the age of 16. So to protect our kids, Government of Assam also decided for mass vaccination of the students and educational institutions were selected for the possible site for vaccination. This ensured less chaos and made it easier for the students. Officials of health department informed us that on 07 February, 2022 students of Karimganj College would be given the vaccine jabs and so to streamline the process NSS volunteers were deputed.

The vaccination drive was conducted in the room number 08 of the college. Students of class XI, wearing college uniforms and carrying their identity cards received vaccines.

12 January, 2022 = NATIONAL YOUTH DAY

Swami Vivekananda's birth day is marked as National Youth Day and to celebrate the birth anniversary of this great personality of mother India, we, the NSS unit of Karimganj College, along with the NCC 'A' company, organised an awareness campaign at our adopted village, Karnamadhu.

The programme was aimed at making people understand the significance of COVID-19 vaccines. Though Government of Assam was trying to get people vaccinated, yet due to some misconceptions a section of people kept themselves away from being vaccinated. NSS volunteers and NCC cadets, accompanied by the teachers of Karimganj College, visited the households.

Har Ghar Tiranga

"Har Ghar Tiranga" is a campaign under the aegis of Azadi Ka Amrit Mahotsav to encourage people to bring the Tiranga home and to hoist it to mark the 75th year of India's independence. Our relationship with the flag has always been more formal and institutional than personal. Bringing the flag home collectively as a nation in the 75th year of independence thus becomes symbolic of not only an act of personal connection to the Tiranga but also an embodiment of our commitment to nation-building. The idea behind the initiative is to invoke the feeling of patriotism in the hearts of the people and to promote awareness about the Indian National Flag.

07 DAYS' SPECIAL CAMP

NSS volunteers need to participate in a seven days' special camp at the adopted village within these two years tenure. So, to fulfill this requirement, proper planning was done and a mega awareness campaign was launched at our adopted village Karnamadhu. We visited the village and had a prior discussion with a few village seniors to chalk out the detailed plan of activities. Local people were informed about our proposed activities and they were very enthusiastic.

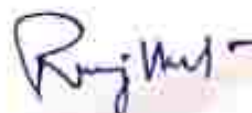

As per our plan, six topics were chosen for this mega awareness campaign. These are drug and alcohol abuse, tree plantation, water conservation, cancer and AIDS. One health camp for the differently-abled persons was also organised. Leaflets were prepared by NSS volunteers and I, as the programme officer, checked the leaflets, did necessary changes and got them printed.

On 15 December 2022, we reached the village by 11:00 am. We gathered in the campus of our Panchayat and volunteers were divided into small groups. The entire task was detailed to the volunteers.

On 15 December 2022, our thrust area of activity was awareness on plantation and survey of the already planted trees. Bundles of leaflets were distributed among the volunteers and the door to door awareness campaign started. Volunteers made each household know the importance of plants and also enquired if the plants, planted earlier, survived or not. It was found that a few plants did survive and are now growing.

Small scale entrepreneurship development and sustainable agriculture

India will convene the G20 Leaders' Summit for the first time in the country in 2023. A nation deeply committed to democracy and multilateralism, India's G20 Presidency would be a watershed moment in her history as it seeks to play an important role by finding pragmatic global solutions for the wellbeing of all, and in doing so, manifest the true spirit of 'Vasudhaiva Kutumbakam' or the 'World is One Family'.

To be a part of this mega event, India Government urged all educational institutions to conduct programmes and subsequently Karimganj College has planned to organise a programme on 'Small scale entrepreneurship development and sustainable agriculture' at village Karnamadhu.

We contacted the office of the Gaon Panchayat to assist us in this endeavour and as a result of their effort a few farmers gathered in the programme. The scientists from Krishi Vigyan Kendra, Akbarpur reached the office of the Gaon Panchayat. They discussed various aspects of sustainable agriculture and vermicomposting.

We invited officials from Punjab National Bank to discuss various Governmental schemes and various modalities of bank loans. He made the farmers aware of the schemes and also advised them various means to avail loans. N.S.S. volunteers were present at the venue to listen all these.

A detailed database of all the participants was prepared by the volunteers.
