## PREFACE

The Department of Economics, Karimganj College organized the “International Webinar on “Pedagogical Shift During Covid-19 Pandemic Prospects and Challenges” in association with IQAC, Karimganj College on 27<sup>th</sup> July, 2020. The outbreak of the Pandemic hit the education system the most. With the lockdown all educational institutions got closed for over so many months and still continuing to remain closed and waiting for the situation to get normalized. Under such situations, the normal reading writing and learning process got hampered. The normal mode of delivering teaching learning mechanism in the classroom got interrupted. However, human mind being innovative, also found out solution for conducting classes and continuing the process of teaching learning via online mode. Thus, we found that from the pre nursery to university level everywhere there occurred a pedagogical shift from traditional mode of imparting teaching learning to virtual mode. The present webinar tried to focus on the different issues and challenges in imparting such virtual mode of education in a country like India, where technology are not accessible by all.

On behalf of the national webinar organizing committee, we render our sincere acknowledgement towards all who made the webinar successful.

### INTRODUCTION

At the very outset it is very much pleasure to point out here that the Department of Economics, Karimganj College Karimganj organized one day **National Webinar “E-Learning A Pedagogical Shift During Covid-19 Pandemic: Prospects And Challenges”** in association with IQAC, Karimganj College Assam, India on 27<sup>th</sup> July, 2020. Since March 2020 remained locked at home to stay safe and uninfected from the CORONA VIRUS, but the urge of accumulating knowledge didn't stop. We also joined the virtual world to enhance the process of teaching and learning. Accordingly organized series of webinars to have a deep drive to understand and analyse the impact of Pandemic in socio-economic life of people of the world in general and India in particular. The Pandemic though stuck us in the corner of our home but at the same time opened a new dimension of reaching each and every corner of the world through virtual mode. We through this International Webinar via virtual platform (ZOOM, and YouTube Live Streaming) reached different corners of the world got connected to different people and shared views, had wide discussions on different socio-economic issues related to COVID -19 Pandemic.

The main aim of this international webinar was to explore how there occurred a pedagogical shift from normal mode of teaching learning to the platform of e-learning due to the pandemic. This shift in pedagogy and imparting of virtual mode of teaching learning process led to new dimensional change in education. As we know the outbreak of COVID -19 Pandemic throughout our Planet has brought serious impact on each and every corner of our civilization. The Pandemic other than health threat had given birth to a series of problems bringing a severe socio-economic and psychological transition. And when we speak from teaching learning perspective we find the consequences of the pandemic is seriously to be addressed. The use of technology somehow tried to console the teaching learning process but dependence on technology or virtual mode of education also has its own lacuna. In a country like India where most of the people live with poor standard of living and most of the people come from rural areas, technology based education is again a great challenge. The rural areas are yet to develop their basic infrastructure, under such circumstances e-learning is a great challenges to make inclusive learning process during this pandemic time. This national webinar on “ E-Learning- A

Pedagogical Shift During Covid-19 Pandemic: Prospects and Challenges” was aimed to address all the varied impact of pandemic on education.

The programme and schedule of the webinar was divided into three main parts- Inaugural Session, Technical Sessions and Valedictory Session. The present report has been divided into four important sections. Section I deals with the Introduction; in Section II there is detail (s) report of each and every Technical Sessions; Section III contains delivery of resource persons on E-Learning -the Pedagogical shift and the last Section IV includes the glimpse of memories of various events that held during the webinar.

The National Webinar was conducted via online mode based on Zoom and Youtube Live Streaming. All technical modes used to conduct the webinar were Whats App Groups, Gmail, Google Drive, Google Sheet, and Google Form. All candidates got registered via the following google form:

### SESSION WISE REPORT OF THE WEBINAR

#### 2.1 Inaugural Session

The webinar was started with the inaugural programme on 27<sup>th</sup> July, 2020 at 4 pm. The inaugural session was presided over by Dr. Ramanuj Chakravorty, Principal, Karimganj College, who is also the President of the webinar. The session was graced by the Chief Guest of the programme Dr. Binod Chandra Borah, Joint Registrar (Academic) Dibrugarh University and Guest of Honour Dr. Ram Kumar Mahto, Assam University, Silchar. The national webinar started with the brief introduction about the national webinar, its chief aims and objectives by Dr. Suchitra Das Assistant Professor, Department of Economics and Organising Secretary, National Webinar. This followed by welcome address from Mr. Gadapani Sarma, HOD, Department of Economics, Karimganj College and joint organizing secretary, national webinar. He addressed the gathering on virtual platform by welcoming the delegates and presented a brief report on the history of development of the Department of Economics, Karimganj College and the driving force of conducting the series of webinar on different issues arising out of COVID 19 Pandemic. Dr. Ramanuj Chakravorty, Principal Karimganj College and President, National Webinar gave his inaugural speech. In his speech he highlighted how online platform and virtual mode are working as an alternative ways of imparting teaching learning process. He was overwhelmed with the efforts made the Department of Economics of organizing such event on such vibrant topic and asked each and every one to participate actively to tract the different issues arising out of the Pandemic. The Inaugural session ended with the vote of thanks from Dr. Ritumani Haloi, Assistant Professor, Department of Economics, Karimganj College and Joint Organising Secretary National Webinar.

## 2.2 Technical Sessions :

Following the inaugural session there were two technical sessions throughout the day covering different aspects of alternative platform of disbursing teaching learning process. From different parts of India, total numbers of 536 participants, who were school, college and university faculties, research scholars and students registered as participants in the webinar and joined the national webinar via ZOOM and Youtube Live Streaming and in Youtube Channel there were 1665 live viewers watching the webinar and at the same time actively being engaged in discussions via live chat. The participants were actively engaged in discussions and generated enormous interest and interactions in different sessions on different gender issues presented by the speakers. The program started at 3 pm and ended at 6.15 pm.

**Dr. Binod Chandra Borah and Dr. Ram Kumar Mahto** delivered speech on first and second technical session respectively covering the different ways of imparting education via the online mode and virtual mode. They discussed thoroughly about the significance of such deliberation during the pandemic time and also focused that this digital mode of education may become the alternative mode of teaching learning process along with the traditional mode of education. They also highlighted about the important problems about the virtual mode of education. As it is fully technology based and devised based system of education, it may fail to be inclusive in character. After each technical session there were wide discussions by the participants and many questions were raised related to the topic of the webinar which were cleared by the eminent speakers. Participants joining both in Zoom Platform as well as Youtube Live Streaming actively participated in discussions and sharing their views and ideas and practical knowledge on problems seen during the Covid-19 Pandemic in education sector.

## 2.3 Valedictory Session

The Valedictory session was held on the same day after the technical sessions via online platform on Zoom and Youtube Live Streaming. The session was presided over by Dr. Ramanuj Chakravorty, Principal Karimganj College and President of the National Webinar and chaired by Dr. Binod Chandra Borah, Dibrugarh University, Dr. Ram Kumar Mahto Assam University, Silchar and Mr. Krishnapada Das, Coordinator, IQAC, Karimganj College, Assam. Dr. Suchitra Das, Organising Secretary, National Webinar gave the report of the different topics discussed in Webinar. Dr. Binod Chandra Borah and Dr. Ram Kumar Mahto in their speech appreciated the effort taken by the department in organizing such webinar in the vibrant topic which according to them was the need of the hour. In the valedictory session, all the participants gave their

feedback of the workshop which was answered by the Organising Secretary. The resource persons, participants and other colleagues of the department shared their views and vibrant discussions were made. Dr. Ramanuj Chakravorty, Principal, Karimganj College in his Presidential address the need of such e-learning for self learning and making the teaching learning process more attractive. ## Changing Circumstances

- Sudden a day, the schools and colleges closed, students were forced to remain in home.
- Reopening becomes uncertain; institutions have been asked to adopt alternative pedagogy, mainly through online mode.
- Teachers tried to adopt these means, students were tried to make motivated and inspired.
- Administrators were uncertain about its effectiveness as most the teachers and students were not accustomed with these new TLMs
- It becomes a challenge for all to bring a new culture in teaching-learning during COVID stigma as well as to get relief from our conventional mind set.

## Alternative Pedagogy:

### ➤ Alternative of what?

- |   |  |
|---|--|
| ➤ Face to Face Classroom teaching.                    | Teaching from remote with new device       |
| ➤ Institutional Routine Based Counselling to learners | Flexible Time-table                        |
| ➤ Working at Department with definite infra-structure | Working from home                          |
| ➤ Pen & Paper Examinations and Evaluation             | Learning becomes more important than exams |
| ➤ Fixed pattern of teaching-learning method (TLM)     | Flexible pattern of TLM                    |

Internet Connectivity and Devices become the most effective tool !

## What we have done?

- At first, Locking down ourselves at home considered a national responsibility.
- Waited for commands from the government, authorities.
- Teachers were asked to help students through message, WhatsApp or through online classes with the help of zoom or google classes or by using e-resources.
- Most of the teachers were not familiar to these new tools of teaching-learning but tried to be accustomed by self-learning.
- Some students took part in these academic exercises but not as regular and systematic practice.
- The Institutions are yet to develop a system or customise its curriculum compatible for online teaching.

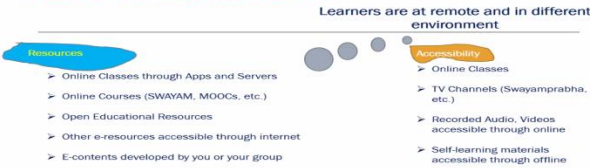

## What is Online Teaching?

- Is it passive teaching?
- Is it teaching through active internet connectivity?
- Is it teaching through mobile phones and computers only?
- How to search e-courses available for us? How can we help our students to pursue these courses?
- What are e-contents? How to search e-contents available for us and for our students?
- How to develop e-contents for our learners?
- Can Offline teaching be provided to our learners?

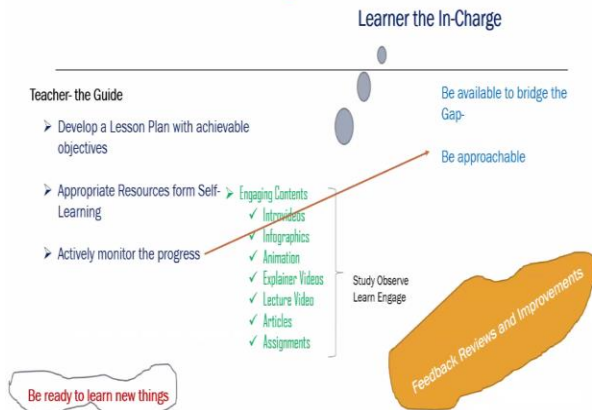

## Who is the Teacher in Online Teaching?

- The teacher
- The teacher + the learner
- The teacher, the learner, the guardian at home?
- The teacher, the learner, the guardian and also the device
- For me, it is the culture, who plays the role of an effective teacher, which all together makes the ambience of learning from remote.

## Higher Education in Assam and Alternative Pedagogy

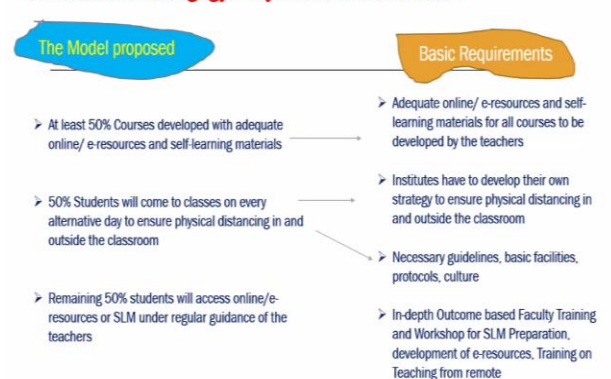

### Alternative Pedagogy and Online Education

## Alternative Pedagogy: In Indian Conditions

## Alternative Pedagogy: Beyond Online Classes

## Alternative Pedagogy: Beyond Online Classes

### What the Teachers Can Do?

- Developing Learners Group within and Outside the Institute
- Developing Clusters of Peers for developing TLM, E-resources and SLM
- Developing Synergy for Resource Sharing, Learner Sharing
- Contributing in developing a holistic learning ambience in the society at large

### What may Hinder You?

- Chair and Old Note method
- T teach, you learn approach
- Beyond Classroom no room attitude
- Authority Vs. Inspiration attitude
- Confined Content, Teaching Approach

## Teacher from Remote in HE

These may give you strength

- ✓ You have in-depth knowledge of the subject.
- ✓ Familiarity with the subjects structure
- ✓ An enthusiasm to teach.
- ✓ Ability to deploy various resources effectively.
- ✓ Good communication skills.
- ✓ Being able to ask the right questions.
- ✓ Listening to the students.

### At the end,

Let's not try to find solution from old experiences. Situation is different, we need to think and act differently.

Let's find ways of hope together, we are bound to live, work and help the society at large.

Let's introspect, what we have done during these adverse circumstances, have we engaged our knowledge, expertise and wisdom to somehow help the mankind

Let's engage in searching and researching the best feasible ways to give justice to our professional responsibilities

Let's not quarantine our thoughts, responsibilities and potentialities
